Class Designation Letters for Reference Designations

A	Separable Assembly
AR	Amplifier
AT	Attenuator; Isolator
B	Blower, Motor
BT	Battery
C	Capacitor
CB	Circuit Breaker
CP	Connector Adapter, Coupling
CN	Capacitor Network
CR	Breakdown Diode
D	Diode
DC	Directional Coupler
DL	Delay Line
DS	Display, Lamp
E	Terminal
F	Fuse
FD*	Fiducial
FL	Filter
G	Generator, Oscillator
GN	General Network
H	Hardware
HY	Circulator
J	Connector, Jack, Female
K	Contactor, Relay
L	Coil, Inductor, Bead, Ferrite Bead
LS	Loudspeaker, Buzzer
M	Meter
MG	Motor-Generator
MH*	Mounting Hole
MK	Microphone
MP	Mechanical Part
P	Connector, Plug, Male
PS	Power Supply
Q	Transistor
R	Resistor
RN	Resistor Network
RT	Thermistor
RV	Varistor, Variable Resistor
S	Switch
T	Transformer
TB	Terminal Board, Terminal Strip
TC	Thermocouple
TP**	Test Point, In-circuit Test Points
TZ	Transzorb
U	Inseparable Assembly, IC Pkg.
VR	Voltage Regulator
W	Wire, Cable, Cable Assembly
X	Fuse holder, Lamp holder, Socket
Y	Crystal, Oscillator
Z	Miscellaneous

Class Designation Letters for Reference Designations

*These class letters would not appear in a parts list as they are part of a PCB and not an active electronic component.

**Not a class letter, but commonly used to designate test points for maintenance purposes.

Note: The above list is not exhaustive. See the standard list of class designation letters in ANSI Y32.2/IEEE Std. 315, Section 22 and the Index.
